Confidential Services

We support the healing and health of our Veterans and military communities by connecting post-9/11 Veterans, Service Members, and their families with free, confidential mental and physical health services. Sometimes those Clients choose to share their story...

Gino Greganti served in the U.S. Marine Corp and was in the first wave of military Veterans returning to civilian life after 9/11. But multiple barriers stood in the way of getting what he needed to heal.

Once Gino connected to long-term therapy, his passion for supporting other Veterans was renewed. He learned that by regularly tending to his own mental health, he's better able to care for others.

For the Community and by the Community - we support Veterans, Service Members and their Families.

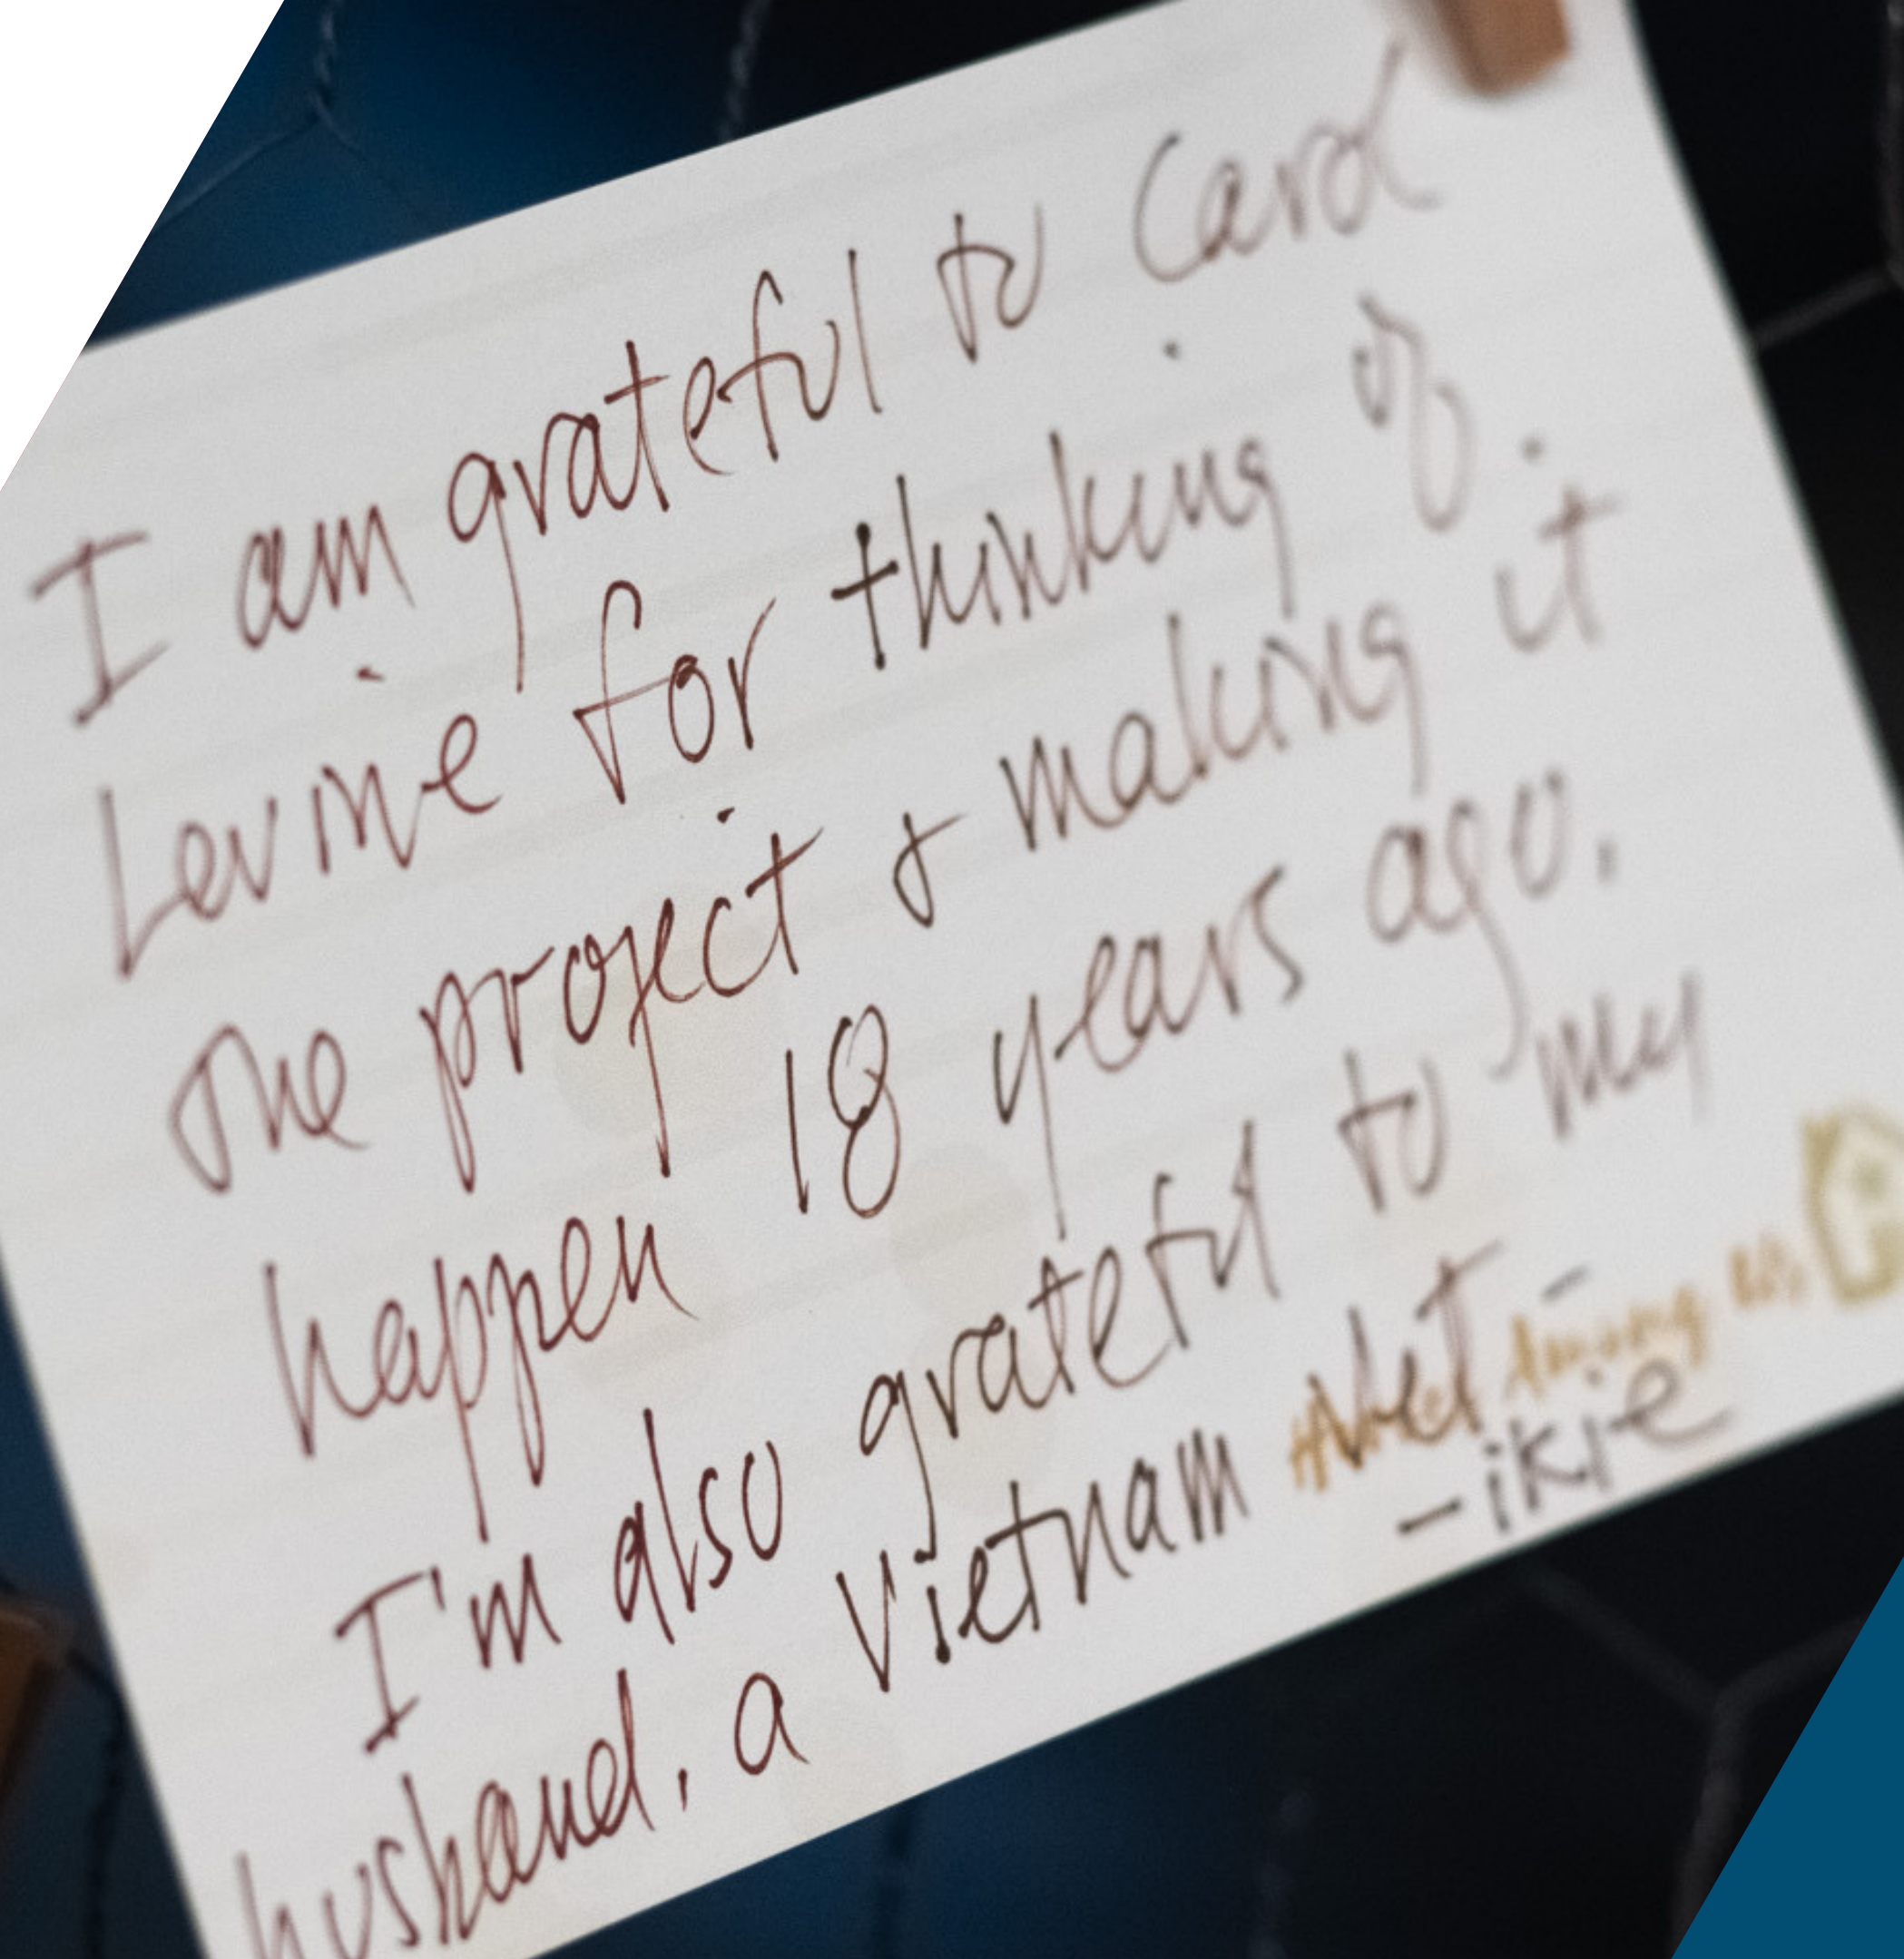

Shocked by the mental and physical injuries Veterans suffered after earlier wars, Carol couldn't stand to see it happening again to those returning from post-9/11 military service.

As a therapist, she knew she had to do something - and that's when she got creative!

"RVP is based on the Healing Power of Community."
